

Pictures from the 2010
Metro Area Junior Envirothon...

Girls from Twin Oaks Middle School pose for their picture in the morning. Pictures are taken of all the teams when they arrive, and are used in brochures, press releases, and are sent to the schools.

Jordan Middle School brought 3 teams to the 2010 Junior Envirothon. We try to allow as many teams as possible to participate in the event, but may need to limit the number, based on the registrations received.

Metro Area Junior Envirothon

Anoka Conservation District

1318 McKay Dr. NE, Suite 300, Ham Lake, MN 55304
Phone: 763-434-2030

Carver Soil & Water Conservation District

11360 Hwy. 212, Suite 6, Cologne, MN 55322
Phone: 952-466-5230

Chisago Soil & Water Conservation District

33814 Third Ave., North Branch, MN 55056
Phone: 651-674-2333

Dakota Soil & Water Conservation District

4100 220th St. W, Farmington, MN 55024
Phone: 651-480-7777

team today!*

Junior Envirothon — An Opportunity for Middle School Students

WHAT is a Junior Envirothon?

It's a problem-solving natural resources competition for middle school students. Students are tested on their knowledge of Minnesota's natural resources — aquatics, soils, forestry, wildlife and a current environmental issue. For 2011, "[Salt & Freshwater Estuaries](#)" is the current topic.

Students will visit five "in-the-field" test stations where written and hands-on problem solving is required. The event is competitive, education is the bottom line. It's also a rain or shine event, so be sure everyone is prepared for the conditions.

The 5 learning stations are staffed by Natural Resource Professionals in that particular field. The Envirothon is a nationwide event that began in Pennsylvania in 1979. Minnesota started a Senior Envirothon (grades 9-12) in 1993, and a Junior Envirothon (grades 6-8) in 2006.

Teams work together on their answer sheets to come up with the answers.

Soils Station 2010—lets hope for nicer weather!

Students at the Aquatics station work on identifying non-native species that invade aquatic ecosystems in MN.

WHO Participates?

Teams of 5 students from the same school (or group—i.e. 4-H groups) enrolled in grades 6-8 can participate. Schools are allowed to bring more than one team, if there is space available. Each team has an adult advisor that travels with the teams from station to station.

All participants in the Junior Envirothon will receive a drawstring sports backpack (see below), and the top three teams with the highest points will receive individual ribbons and a framed certificate for their school.

WHY an Environmental Competition?

The Envirothon teaches the students about the environment, and how they can become involved in protecting our natural resources now as students, and later as adults. It also teaches them teamwork. Students representing their school compete as a five-member team. They cooperate with one another in order to *collectively* come up with the solution and correct answers in each of the five tests.

Teachers across the country are recognizing the value of the Envirothon as a means of strengthening the environmental awareness of students.

WHEN is the Junior Envirothon?

The Junior Envirothon will be held on Thursday, May 12, 2011 at the U of M Landscape Arboretum in Chanhassen. Team registration begins at 8:30 AM, with the entire event being completed by about 12:20 PM.

WHERE are they held?

Many states along the east coast have been hosting Junior Envirothon events for quite a few years. Coincidentally, some of these states have also had teams that won the National Senior High Envirothon.

This is the fifth annual Junior Envirothon for the Metro area. The metro area started the first Junior Envirothon in Minnesota in 2006 with only 3 counties participating (Carver, Hennepin, & Scott). The Junior Envirothon has proven to be a huge success in the metro, and continues to grow every year. Other areas of the state have also started organizing Junior Envirothon's in their own regions.

Organize your team TODAY to be ready to compete in the metro area Junior Envirothon on May 12, 2011!

Sample Question from 2010 Event

Question: Identify this bird specie, and does it breed in Minnesota?

Answer: Sandhill Crane & Yes
